## Projects

### MultiGroup Bootcamp Websites | [genai.devmultigroup.com](https://genai.devmultigroup.com), [android-blast-off.devmultigroup.com](https://android-blast-off.devmultigroup.com)

Official websites for Developer MultiGroup BootCamps live streamed in Youtube. Featuring resource fetching via Google Sheets API, custom context usage, a custom session generator component and much more.

**Tech Stack:** Next.js, Tailwind, shadcn/ui, Google Cloud Sheets API, Vercel, Framer, Context

### Buildog | [docs.buildog.dev](https://docs.buildog.dev)

Taking part in the development of the project as a contributor. Web based, open-source writing tool.

**Tech Stack:** Next.js, Tailwind, shadcn/ui, Golang, Firebase, Google Cloud

### TravelMap | [map.furkanunsalan.dev](https://map.furkanunsalan.dev)

A personal project for tracking and visualizing travel destinations and places of interest using an interactive map, with features for rating, bookmarking and state management.

**Tech Stack:** Vite, Firebase, React, Tailwind, Vercel, Framer

## Work Experience / Volunteer

### Developer MultiGroup | Technical Event Organizer & Web Development

Oct 2024 - Present

- Actively developing and leading web projects used by 500+ people that help both our team and our community.
- Attending events as a Strider to expand my network and secure more sponsors and speakers to support the community.

### Google Developer Groups on Campus Haliç | Vice President

Aug 2024 - Present

- Organizing events, workshops, and meetups attended by 100+ members that bring together developers and tech lovers in our community.
- Working with the social media team to create fun and engaging social media content to promote our events and showcase what we're doing.
- Actively contributing to projects related to both the community and our project team.
- Giving workshops to help students in our campus to learn new topics and engage with tech.

### Google Developer Groups on Campus Haliç | Core Team Member

Sep 2023 - Aug 2024

- Collaborating with our team to design and develop applications that address real-world problems.
- Enhancing my skills in project management, teamwork, and technical problem-solving while contributing to the tech community on campus.
