Work Experience / Volunteer

Developer MultiGroup | *Pioneer*

Oct 2024 - Present

- Actively developing web projects that help both our team and our community.
- Attending events as a Strider to expand my network and secure more sponsors and speakers to support the community.

Google Developer Groups on Campus Haliç | *Vice President*

Aug 2024 - Present

- Organizing events, workshops, and meetups attended by 100+ members that bring together developers and tech lovers in our community.
- Working with the social media team to create fun and engaging social media content to promote our events and showcase what we're doing.
- Managing and advising our project team on how to build impactful projects for competitions like Teknofest and Tübitak.
- Actively contributing to projects related to both the community and our project team.
- Giving workshops to help students in our campus to learn new topics and engage with tech.

Google Developer Groups on Campus Haliç | *Core Team Member*

Sep 2023 - Aug 2024

- Collaborating with our team to design and develop applications that address real-world problems.
- Enhancing my skills in project management, teamwork, and technical problem-solving while contributing to the tech community on campus.
