Projects

MultiGroup Headquarters | *hq.devmultigroup.com*

Team headquarter website for making the use of other platforms easier in a central platform, connected to Cloudflare for Assets CDN. Hub for all MultiGroup resources like photos, 100+ documentations and team info.
Tech Stack: Next.js, Tailwind, shadcn/ui, FumaDocs, Vercel, Cloudflare R2, Supabase Auth & Database

MultiGroup Event page | *etkinlik.devmultigroup.com*

Fully functional, dynamic event page for displaying and listing all your event. Event dashboard in development.
Tech Stack: Next.js, Tailwind, shadcn/ui, Supabase

Travel Map | *map.furkanunsalan.dev*

A personal project for tracking and visualizing travel destinations and places of interest using an interactive map, with features for rating, bookmarking and state management.
Tech Stack: Vite, Firebase, React, Tailwind, Vercel, Framer Motion

Work Experience

Teachfluence | *Frontend Developer, Internship*

Jun 2025 - Present

- Taking part in the refactoring of our drag-and-drop website-editor forked from Puck Editor
- Writing new components and fixing bugs in components used by clients
- Attending meetings of all sorts with the team to learn other parts of the business
- Participating in important decisions like new designs with my thoughts.

Lodos.io | *Frontend Developer, Outsource Contributor*

Sep 2025 - Present

- Contributing to the project for fixing user experience issues and improving the overall usability of Social Hive (Event & Community Management Module inside Lodos) with the team.
- Gathering feedback across the app from teams and users to report to the team while also examing competitor platforms.

Volunteering

Developer MultiGroup | *Technical Event Organizer & Web Developer*
Oct 2024 - Present

- Actively developing, leading and maintaing web projects of the community used by 500+ people that help both our team and our community.
- Attending events as a Strider to expand my network and secure more sponsors and speakers to support the community.
- Helping teams to coordinate with each other and get used to MultiGroup ecosystem
- Responsible for MultiAcademy Web Pages, made with Next.js and Google Cloud API:
  - *genai.devmultigroup.com*
  - *android-blast-off.devmultigroup.com*
- **Organized Events:**
  - Mobile Developer Conference 25: Taken part in various sections of the event, from contacting speakers to preparing the space and schedule, attended by 200+ members and 30+ speakers.
  - Web Developer Summit 25: Helped in the organization and sponsorship contacts. This was an event attended by 70 people and hosted 5 different sessions about web development.

Google Developer Groups on Campus Haliç | *Organiser, Campus Leader (since July 2025)*
Sep 2023 - Present

- Previous Vice President (Aug 2024 - July 2025) and Core Team Member (Sep 2023 - Aug 2024)
- Organizing events, meetups and giving workshops attended by 100+ members that bring together developers and tech lovers in our community.
- Working with the social media team to create fun and engaging social media content to promote our events and showcase what we're doing.
- Actively contributing to projects related to both the community and our project team.
- Collaborating with our team to design and develop applications that address real-world problems.
- Enhancing my skills in project management, teamwork, and technical problem-solving while contributing to the tech community on campus.
